

Power Stow® Rollertrack Conveyor

Service Inspection &
Certified Technical Training Course

www.powerstow.com

At Power Stow, we design and manufacture products you can rely on - every day and in all weather conditions. Our dedicated support team provides assistance throughout the lifecycle of your Power Stow equipment. Please get in touch with our trained and

experienced specialists who can provide you with solutions to ensure smooth operations and high reliability. If you need assistance of any kind, our support team is on hand via our our free hotline service. We have spare parts available for immediate shipment.

Operator and technical training

Power Stow provides operator and technical training at airports around the world. Our experienced service technicians make sure that you are familiar with even the smallest detail so that you can ensure that the equipment functions efficiently for many years to come.

Service inspection

Regular inspection and maintenance are crucial because they secure safe and productive operations and extend the lifetime of your PowerStow unit. Our support team guides your service technicians through the process and ensures that they have the knowledge and skills they need to keep your units working smoothly.

Service Inspection & Certified Technical Training Course Includes:

- Rollertrack Conveyor yearly service inspection, incl. inspection report
- Certified Rollertrack Conveyor Technical Training Course
- Two days' on-site support

Option to add further Rollertrack Conveyors at a fixed rate per day.

On-site maintenance following service inspection by agreement at a fixed rate per day.

Your Rollertrack Conveyor:

New unit:

- Three-year annual service inspection and technical training at time of purchase. Includes extended warranty if maintenance is conducted in accordance with inspection reports.

Used unit:

- Ad-hoc service inspection and technical training at any time throughout the Rollertrack Conveyor unit's lifetime. Recommended at maintenance intervals or annually.

Why choose Power Stow Service Inspection?

- Build service staff skills
- Ensure maximum uptime
- Extend the lifetime of your Rollertrack Conveyor
- Protect asset investment
